

The Future of Specialty Training is Here...

## REPORTING FEATURES

www.codingmetrix.com

The Measure of Your Success.

Online Education. Assessments. Results.

### The Assessment Tools You Need!

How do you provide specialty coding education to your entire staff? View detailed management reports based on each user, per course. Never before has it been so easy to train staff members and assess skill sets, while preventing missed revenue!

The Power to Manage

### Results

### Status Reports

- A Summary Status Page Totals
- B Create Report in CSV Format
- C Mail Students From Report
- D Records window
- E Student Status

Once you've selected the Run Report button, the Course Status Report screen appears.

The Summary Status Page Totals (A) the total number of students registered for the course selected, how many students have not attempted the course and the number that have completed the course.

The Create Report in CSV Format button (B) creates a Comma Separated Value text file that you can import into a database or spreadsheet.

The Mail Students From Report button (C) will open the Manage Email screens enabling you to e-mail the student their status.

The Records window (D) shows the students name and status and when they accessed the course last.

The Status (E) of the course will be displayed as:

Not Attempted
  Incomplete
  Completed
  Passed
  Failed

### Track User Status at Course Level...

Imagine having the ability to log on at any time to track your users' status as they progress through a training program. Management can track who has attempted and/or completed each course and download this information into a spreadsheet for easy distribution.

With a click of a button, management can even email directly from the Status Report to individual users!

### View User Scores & More!

Metrix allows management to evaluate their staff's comprehension and review individual scores at any time each students progress through the courses. We give you the flexibility to purchase what you need, when you need it. The possibilities are endless with Coding Metrix!

### Scoring Reports

- A Student ID
- B Student Name
- C Session ID
- D Score
- E Create Report in CSV Format button
- F Mail Students From Report button

The results of the Score Report will show the following information:

- A Student ID
- B Student Name
- C Session ID
- D Score

As with other reports, you may choose to select the Create Report in CSV Format button (E) creating a Comma Separated Value file to import in a database or spreadsheet.

You can also select the Mail Students From Report (F) button to e-mail the results of their scores to the students.
